

Florida TSA Virtual Leadership Conference

Florida TSA has created a virtual leadership conference program to replace the in-person conference due to COVID-19. Conference sessions will be aired at times listed in the program along with playback options for students to watch sessions at their convenience. All schools and districts have students with different learning schedules. This format will allow flexibility for students to participate from home or from school. Teachers may also want to use playback options to show presentations or sessions from their classroom the next day after they air live.

See the agenda for projected dates and times of each session. In addition to each virtual session, advisors will review two documents. One document will contain daily leadership activities that can be done in a classroom. The second document will contain a few projects that can be used during leadership week or later on in the year. This material will be emailed to each chapter advisor.

This virtual experience will promote leadership, team building within a chapter, and enhance knowledge for Florida TSA. Florida TSA will have information posted for regional competitions and state competitions as it becomes available.

Virtual Conference Chapter Participation Rates: \$250 / flat rate for entire chapter

- Chapters that affiliate prior to Oct 2nd and upload affiliation rosters will be eligible for a discounted rate of \$125.
- Chapters that affiliate an entire school under FL TSA's Blue CAP program prior to Oct 2nd and upload all school rosters will receive a complementary registration. All rosters must be fully uploaded in order to qualify for this program.
