

High School Photographic Technology On-site Challenge Instructions

For Participants

First stage: Take photographs during stations 1&2.

Station 1: Macro Photography (Black Screen)

Station 2: Self Portrait (White Screen)

Station 3: The Interview

Second stage: Create a multimedia presentation and submit a copy on the two USB flash drives.

Each photograph must include the following information:

- Copy of the original, unedited image
- Camera make
- Camera model
- F-Stop at which photograph was taken
- Exposure time of each photograph
- ISO value, aperture, and shutter speed
- Focal length of the lens for each photograph
- For each image presented, participants must also write a brief statement in 12-point Times New Roman font of one to two sentences on how the photographer believes the image meets the challenge. The statement must also include the edits made to the original image to arrive at the final image. This statement should not appear on the same page/slide as the image.
