EVENT PROPOSAL INFORMATION

As technology changes and technology education attempts to keep pace and reflect these changes, new TSA events are added, some are revised, and others are dropped. TSA chapter advisors, state advisors, and others are encouraged to submit proposals for new events.

The following topics reflect potential areas for development:

Lasers/satellites/radar	Cloud computing
Engineering	Mobile apps
3D printing	STEM
Transportation technology	Economic development
Environmental technology	Future technology
Innovative power sources	21st-century technology
Biotechnology problem solving	Leadership development
Electronic publishing	Data management
Social media marketing	Green technology
Manufacturing technology	Cybersecurity

When submitting a proposal for consideration, include these elements:

• Overview (description of the event and participant expectations)
• Eligibility for entry
• Limitations (such as time or entry submission requirements)
• Specific regulations
• Required personnel
• Standards alignment with STEM standards

Formative ideas are welcome, but the more complete the proposal the less likely it will be misinterpreted. The Competition Regulations Committee (CRC) acknowledges all submissions, and each is given consideration for possible inclusion in a competitive events guide. Once submitted, ideas and events become the property of national TSA. Proposals must be submitted by August 15, 2017 in order to be considered for the next high school guide.

Proposals must include the submitter's name and complete contact information. Proposals may be mailed to CRC, c/o National TSA, 1914 Association Drive, Reston, VA 20191-1540, or submitted in a Word file to general@tsaweb.org.
