## [School Name] Technology Student Association Successful at National Competition

Students part of [School Name] Technology Student Association just returned from their national conference in Orlando, Florida, competing against thousands of students from all across the country, and even some from around the world.

The following students received recognition for their projects at the national level:

[List of students/teams, their event, and honor received]

Before traveling to the National Conference, [School Name]'s chapter was successful at the Florida TSA State Conference, [Number of state finalists] teams earning top ten finishes in the state. To win at the national level involves hard work preparing projects for a year to be submitted for semifinalist status. All semifinalists participate in interviews with industry professionals about their events, which helps determine the top ten placements.

[Insert paragraph about chapter's past TSA history, preparation, and/or quote from chapter advisor or dedicated student(s)]

All TSA conferences develop 21st century skills in the next generation's leaders and provide middle and high school students with over 70 competition opportunities within the U.S. Department of Education's National Career Clusters Framework®. During the National Conference, students also received leadership workshops from acclaimed speakers and networked with representatives from companies, universities, non-profits, and other chapters across the world.
