[School Name] Technology Student Association Successful at State Competition

Students part of [School Name] Technology Student Association just returned from their annual state conference in Orlando, Florida, competing against thousands of students from all across the state.

[School Name]'s chapter has been hard at work for the past year, creating projects to present to technology and engineering educators and industry representatives. The following students received recognition for their projects at the state level:

[List of students/teams, their event, and honor received]

[Paragraph on history of chapter as part of TSA and goals for the future]

[Number] students will advance to represent [Town/City Name] at the 2024 National Conference from June 26-30 in Orlando, Florida.

Open to students enrolled in or who have completed technology and education courses, TSA's membership includes more than 300,000 middle and high school students across the United States. Members learn through exciting competitive events, teamwork and leadership opportunities, and much more. TSA high school and middle school competitions are categorized by careers in Architecture and Construction Technology, Communications Technology, Computer Science and Information Technology, Leadership, Manufacturing and Transportation Technology, STEM (General), STEM and the Arts, and Technology and Research.
