

# TSA Timeline

## Blast Off!

Time to begin the new TSA season! Recruit interested students, welcome new members, start events, and get to know each other as a team. Don't forget to affiliate your chapter when registration opens in September!

## Leadership Training Conference

The first exciting FLTSA Conference of the year in Orlando! Planned by the State Officers, it aims to help chapters prepare for the year and network with other members, rather than compete.

## Full Speed Ahead!

It gets really busy around here as chapters start picking up speed on their events to prepare for upcoming competitions. Chapter fundraisers should also be taking place to raise money for materials or travel.

## Regional Conference

These are one-day, local events meant to help members practice competing in their events before States. Check the state website to see if there's a regional conference near you, and if there's not, start one!

## State Conference

The most long-awaited event of the FLTSA season! Students proudly present the projects they've been working all year in Orlando for the chance to win! State Officers are also elected for the next term.

## End of School Year

Every chapter should applaud their hard work! Many do this by having end-of-year-banquets celebrating their members. Chapters should also elect officers for the next year and start thinking about Nationals.

## National Conference

Nationals takes places in various fun places across the country, where you'll get to compete against the best in the nation, attend various speaker and industry sessions, and make lots of new connections.
